

**MATH S-Qr. Chance: An Introduction to Quantitative Reasoning in Everyday Life
(CRN: 31523)**

John Mackey PhD, Preceptor in Mathematics, Harvard University

This is a beginning probability and statistics course that introduces notions of mean, median, variance, and randomness through contemporary examples. Current news topics provide material for relevant and lively class discussions. Whether you know just a little arithmetic or a lot, this is an engaging course about the use and misuse of quantitative reasoning in everyday life.
