

**EXPO S-20g Section 3. Writing/Art, Visual Media (CRN: 31676)**

*Katherine Milligan PhD, Preceptor in Expository Writing, Harvard University*

Students look at works of art and read texts about the philosophy and history of visual culture. Class sessions focus on methods for analyzing art, film, and other visual media, and on strategies for reading such texts closely. Students then learn to write critical essays that develop coherent arguments about this material.
